Software Developer

Hans Enclave Sector 33, Gurugram(Haryana)

## PROFILE

I am Software Developer doing my best in order to develop highly interactive and performance based Web Applications. Thus, I am well acquainted with HTML, CSS, JavaScript, WordPress with extra knowledge of the modern technology known as React and Bootstrap. I focus on knowing how interfaces look and how easy it is in terms of patterns and functions that can be followed or applied by the user. I believe that having proper practice would help in designing more efficient and interesting websites and also in developing applications.
